
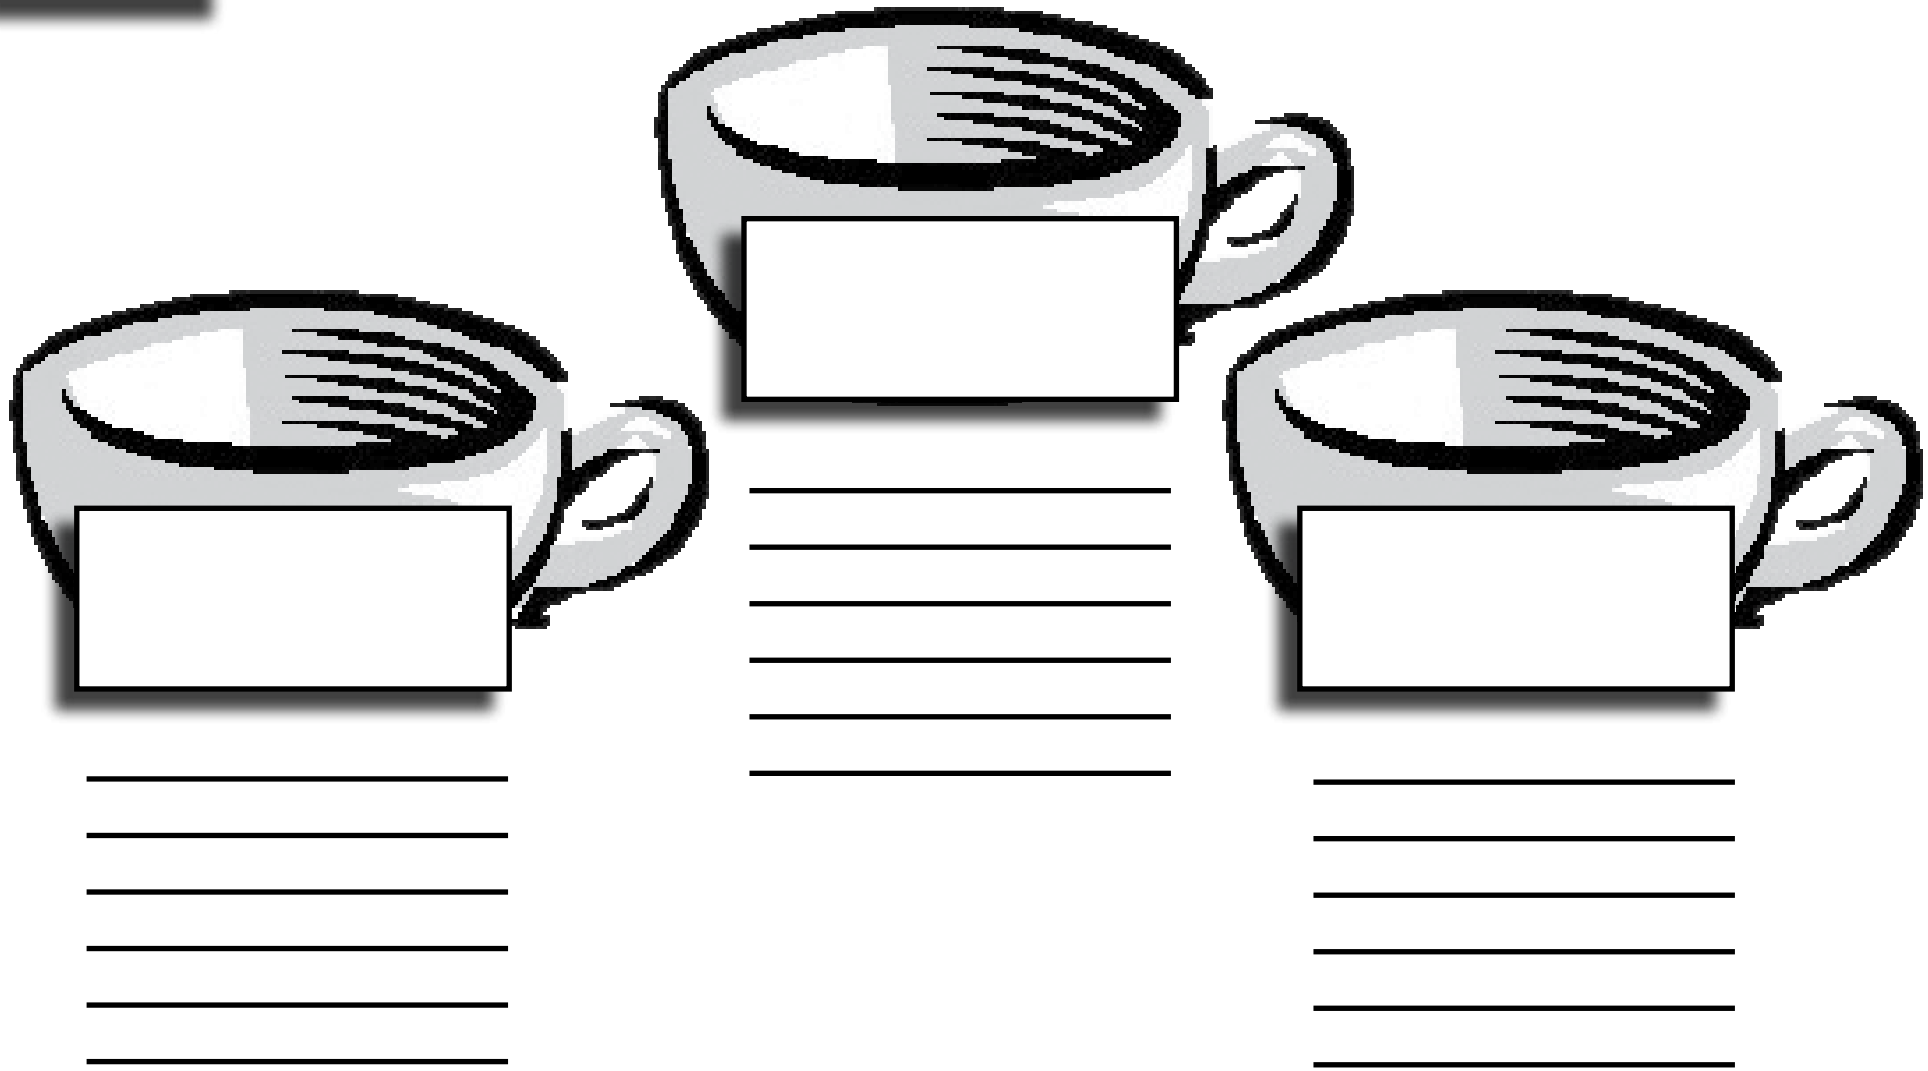
BUDGET WORKSHEET

NAME: _____


A budget is a written plan for your money. A budget helps remind you of the choices you have made about how to use your money. Below are three cups. Think about your own spending. On each cup write one way you will use your money. Besides spend, save and give, consider specific ways to use your money. For example, one cup might be labeled **Movies** to help you save money for going to the movie theatre. You might label a cup **Clothes** or you might label a cup **Bank** to remind you that you will place that money in a savings account at your bank or credit union. Beneath each cup are lines for you to place the amount in your cup each time you count it. This will help you track your progress!
