

NAME: _____

Coin Rubbing

Place the coin underneath this paper and using the side of a pencil or crayon rub back and forth across the surface of the coin. By placing a finger on either side of the coin, you can keep it from moving. Be careful not to rub so hard that you rip the paper! Make a rubbing of both the "heads" and "tails" sides of each coin.

A penny is worth _____ cents.

A nickel is worth _____ cents.

A dime is worth _____ cents.

A quarter is worth _____ cents.

Coin Rubbing

In the column below, create a coin rubbing for a penny, nickel, dime and quarter in the correct row, "heads" side only.

Penny

Nickel

Dime

Quarter

Great Graph - How many coins are in the register?

You own a shop and have lots of coins in the cash register. Read the bar graph below and total the amount of pennies, nickels, dimes and quarters that you have.

NAME: _____

Vermont Quarter

The U.S. Mint has made a special quarter for each of the 50 states. The Vermont quarter was minted in 2001. Each state quarter was made for just 10 weeks and will never be produced again. Below is the Vermont quarter. A quarter is worth 25 cents. It takes four quarters to equal one dollar.
