A message to you from your school librarian!

Our school is participating in the Reading is an Investment program. The program aim is to increase school book collections in personal finance, give teachers and librarians related curricular resources, and encourage students to read books that teach money concepts.

This new Vermont program provides teachers with age-appropriate lesson plans and activities to teach students personal finance.

The 2011-2012 Curriculum Guide and books are available for your review in our library. You may also view program materials online at:
