ITEM 1: Opening Remarks and Approval of Minutes

Ms. Pearce moved to approve the minutes from 12.19.2014. Mr. Boardman seconded the motion.

Ms. Pearce gave an overview of the charge and deliverables of the Public Retirement Study Committee (the Committee) by reviewing the report submitted by the Committee last year. The group discussed the purpose of the Committee. The group discussed the population of Vermonters who do not have access to a retirement plan through their employment. The group discussed an AARP handout of information regarding Vermont-specific information on this topic.

ITEM 2: Overview of National Issues & Examples from Other States

Ms. Pearce introduced Ms. Antonelli from the Center for Retirement Initiatives at Georgetown University and Mr. Hill from Service Employees International Union. Mr. Hill and Ms. Antonelli gave an overview of national issues surrounding retirement security as well as an overview on what other states have done.

Ms. Pearce noted the guiding principles that the Committee agreed upon the following list of guiding principles as noted in the report submitted by the Committee in January 2015:

- a. Simplicity—a plan should be easy for participants to understand
- b. Affordable—a plan should be administered to maximize cost-effectiveness and efficiency
- c. Ease of Access—the plan should be easy to join
- d. Trustworthy Oversight—the plan should be administered by an organization with unimpeachable credentials
- e. Protection from Exploitation—the plan should protect its participants, particularly the elderly, from unscrupulous business practices or individuals
- f. Portability—the plan should not depend upon employment with a specific firm or organization
- g. Choice—the plan should provide sufficient investment alternatives to be suitable for individuals with distinct goals, but not to many options to induce “analysis paralysis”
- h. Voluntary—the plan should not be mandatory; however, auto-enrollment may increase participation
- i. Financial Education and Financial Literacy—the plan should assist the individual in understanding their financial situation
- j. Sufficiency Savings—encourage adequate savings in retirement combined with existing pension savings and social security
- k. Additive not Duplicative—the plan should not compete with existing private sector solutions
- l. Able to use pre-tax dollars

The Committee discussed integrating the guiding principles (listed above) with the next steps detailed in Ms. Antonelli’s presentation.
